**By email only**

Dear Jonathan

**Bank of England's request for pre-release access to ONS statistics in 2019**

The Bank of England continues to welcome all steps taken to ensure the integrity of official economic statistics and fully supports the decision to end regular pre-release access to ONS data.

As we have previously discussed, Part 2 of the Pre-Release access to Official Data Order 2008 provides for the National Statistician to grant exceptional pre-release access to particular Bank staff where, in her or his judgement, it is required for the Bank to discharge its policy functions most effectively. We agree that such access should be as transparent as possible.

As I wrote in my previous letter dated 16 February 2018, the Bank intends to write to the ONS, on an annual basis, requesting whatever pre-release access, if any, might be necessary for the Bank to discharge its policy functions over the following year, in light of the ONS's data release timetable and our own schedule of meetings of the Monetary Policy Committee (MPC). This letter covers the Bank's request for pre-release access to official statistics in 2019.

As you are aware, the data contained within the Consumer Price Inflation and Labour Market Statistics releases, are central to the Bank's assessment of the current economic outlook and so the MPC's monetary policy decision.

Under the exceptional circumstances that these data are released in the same week that the MPC announces its policy decision, the Bank requests continued pre-release access for MPC members and a very small number of Bank staff (those present at the MPC meeting itself and some members of the Governor's Private Office) to:

The Consumer Price Index releases that fall on the:

1. 20<sup>th</sup> March with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 18<sup>th</sup> March.
2. 19<sup>th</sup> June with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 17<sup>th</sup> June.
3. 18<sup>th</sup> September with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 16<sup>th</sup> September.
4. 18<sup>th</sup> December with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 16<sup>th</sup> December.

The Labour Market Statistics releases that fall on the:

1. 19<sup>th</sup> March with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 18<sup>th</sup> March.
2. 17<sup>th</sup> December with pre-release access granted such that the data are available for the MPC's discussion meeting at 10.00am on Monday 16<sup>th</sup> December.

Although fairly unlikely, it is possible that the timings of some of the MPC's meetings may need to be adjusted during the course of the year, for instance to accommodate senior Bank staff's attendance at international meetings. If that occurs in a way that affects our need for exceptional pre-release access in any way, we will of course let you know straightaway.

Yours sincerely

Ben Broadbent  
Deputy Governor, Monetary Policy
